The Indian Government announced a lockdown in March 2020, post the outbreak of Covid-19 pandemic. Subsequently, the national lockdown was lifted by the Government, but regional lockdowns continue to be implemented in areas with a significant number of Covid-19 cases. India experienced a "second wave" of the Covid-19 pandemic in April-May 2021, leading to the reimposition of regional lockdowns. These were gradually lifted as the second wave was subsided. The world is now experiencing another outbreak on account of a newer variant leading to imposition of some localised / regional restrictions. The subsidiaries engaged in financing activities have considered internal and external sources of information for assessing the credit risk and impact on the its financial assets, including management overlays for the purpose of determination of the provision for impairment of financial assets. The extent to which the Covid-19 pandemic will continue to impact its results will depend on ongoing as well as future developments, which are highly uncertain, including, among other things, any new information concerning the severity of the Covid-19 pandemic, and any action to contain its spread or mitigate its impact whether Government-mandated or elected by the said subsidiaries.
