INDEPENDENT AUDITORS' REPORT

To the Members of Hinduja Leyland Finance Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Hinduja Leyland Finance Limited ("the Company"), which comprise the standalone balance sheet as at 31 March 2019, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2019, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Description of Key Audit Matter

Key audit matter	How the matter was addressed in our audit
<p>Adoption of new accounting framework (Ind AS) Effective 1 April 2018, the Company adopted the Indian Accounting Standards ("Ind AS") notified by the Ministry of Corporate Affairs with the transition date of 1 April 2017. The migration to the new accounting framework is a complicated process involving multiple decision points upon transition including regulatory matter related compliances. Ind AS 101, First Time Adoption prescribes choices and exemptions for first time application of Ind AS principles at the transition date. We identified transition date accounting as a key audit matter because of significant degree of management judgment and application on the areas noted above.</p> <p>Refer to the accounting policies in the Financial Statements: Significant Accounting Policies- "Basis of preparation" and "Note 47 to the Financial Statements: Transition date choices and application"</p>	<p>Our audit procedures included:</p> <ul style="list-style-type: none">• Assessing the operating effectiveness of internal controls over transition and exemptions availed in line with the principles under Ind AS 101.• Evaluated management's assessment of transition choices, impact of transition, accuracy of computations and related disclosures.• Understood the methodology implemented by management to give impact on the transition.• Assessed areas of significant estimates and management judgment in line with principles under Ind AS.

INDEPENDENT AUDITORS' REPORT (Continued)
To the Members of Hinduja Leyland Finance Limited

Key audit matter	How the matter was addressed in our audit
<p>Classification and measurement of Financial assets – Business model assessment</p> <p>Ind AS 109, <i>Financial Instruments</i>, contains three principal classification and measurement categories for financial assets. A financial asset, such as loans to customers, is classified into a measurement category at inception and is reclassified only in rare circumstances. The assessment as to how an asset should be classified is made on the basis of both the entity's business model for managing the financial asset and the contractual cash flow characteristics of the financial asset.</p> <p>The management has assessed its business model on the basis of its business plan and history of sales of financial assets and consequently, classified and measured certain financial assets at fair value through other comprehensive income effective 1 April 2018. We identified business model assessment as a key audit matter because of the management judgement involved in determining the intent for selling / holding a financial asset which could lead to different classification and measurement outcomes of the financial assets and its significance to the financial statements of the Company.</p> <p>Refer to the accounting policies in the Financial Statements: Significant Accounting Policies- "Classification and measurement of financial assets" and "Note 8 to the Financial Statements: Loans"</p>	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> • Assessing the design, implementation and operating effectiveness of internal controls for classification of financial assets on the basis of management's intent. • For financial assets classified at amortised cost, we tested controls over the classification of such assets and subsequent measurement of assets at amortised cost. Further, we tested internal controls over monitoring of such financial assets to check whether there have been any subsequent sales of financial assets classified at amortised cost. • For financial assets classified as fair value through other comprehensive income refer the section on "Valuation of financial instruments" for the procedures performed. • Test of details over of classification and measurement of financial assets in accordance with management's intent. • We selected a sample of financial assets sold during the year, to evaluate the accounting under Ind AS 109 and to verify if there have been sales of financial assets classified at amortised cost.
<p>Valuation of financial instruments</p> <p>Financial instruments carried at fair value and measured at fair value through other comprehensive income, account for a significant part of the Company's assets.</p> <p>The valuation of the Company's financial instruments is based on a combination of market data and valuation models which often require significant management judgement.</p> <p>We identified assessing the fair value of financial instruments as a key audit matter because of the degree of complexity involved in valuing certain financial instruments and because of the significant degree of judgement exercised by management in determining the inputs used in the valuation models.</p> <p>Refer to Note 2 and Note 45 to the financial statements for accounting policy, valuation and the related disclosures in respect of the financial instruments.</p>	<p>Our audit procedures include:</p> <ul style="list-style-type: none"> • Obtained an understanding of the fair valuation methodology; • Obtained valuation reports, considered by the Company; • Engaging independent valuation specialists to assist us in the evaluation of valuation models used by the Company. • Assessed the appropriateness of the valuation methodology and testing the key inputs used.

INDEPENDENT AUDITORS' REPORT (Continued)
To the Members of Hinduja Leyland Finance Limited

<p>Impairment of Financial assets The determination of loan impairment is inherently judgmental and relies on management's best estimate of a variety of inputs.</p> <p>Pursuant to Ind AS 109, the Company's impairment allowance is derived from estimates including historical default and loss ratios. Management exercises judgement in determining the quantum of loss based on a range of factors:</p> <ol style="list-style-type: none"> 1. Segmentation of the loans to customers 2. Loan staging criteria 3. Calculation of probability of default and loss given default 4. Probability of economic factors 5. Complexity of disclosures <p>There is also a large increase in the data inputs required under the expected credit loss model.</p> <p>As set out in note 47.5(ii) to the standalone financial statements, the Company has disclosed an estimate of the impact of transition to Ind AS.</p>	<p>Our audit approach included:</p> <ul style="list-style-type: none"> • Evaluating appropriateness of impairment principles under Ind AS 109; • Assessing the design and implementation of controls over loan impairment process and management review processes over the calculation of provisions; • Assess management review controls over measurement and disclosures; • Engage independent modelling specialist to test the methodology and reasonableness of assumptions; • Model calculations were tested through re-performance where possible. • Test of details over of calculation of impairment allowance for assessing completeness and accuracy of data. • Verify the appropriateness of managements judgment in respect of calculation methodologies, segmentation, economic factors, the period of historical loss rates used, and the valuation of recovery assets and collateral.
<p>IT System and controls over financial reporting The Company's key financial accounting and reporting processes are highly dependent on the automated controls in information systems, such that there exists a risk that gaps in the IT control environment could result in the financial accounting and reporting records being materially misstated.</p> <p>Automated accounting procedures and IT environment controls, which include controls over program development and changes, access to programs and data and IT operations, are required to be designed and operate effectively to ensure appropriate financial reporting.</p> <p>Consequently, we identified IT systems and controls over financial reporting as a key audit matter.</p>	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> • Test controls over the information technology environment, including system access and change management; • Test considered the appropriateness of the access rights granted to applications relevant to financial accounting and reporting systems and the operating effectiveness of controls over granting, removal and appropriateness of access rights; • Evaluating the design and operating effectiveness of automated controls critical to financial accounting and reporting. For any identified deficiencies, tested the design and operating effectiveness of compensating controls and, where necessary, extended the scope of our substantive audit procedures.

Information Other than the Standalone Financial Statements and Auditors' Report Thereon (other information)

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. The other information (information included in the annual report, but does not include the financial statements and our auditor's report thereon) is expected to be made available to us after the date of this auditor's report.

INDEPENDENT AUDITORS' REPORT (Continued)
To the Members of Hinduja Leyland Finance Limited

Management's Responsibility for the Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

INDEPENDENT AUDITORS' REPORT (Continued)
To the Members of Hinduja Leyland Finance Limited

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

(A) As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The standalone balance sheet, the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and the standalone statement of cash flows dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on 31 March 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2019 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

INDEPENDENT AUDITORS' REPORT (Continued)
To the Members of Hinduja Leyland Finance Limited

(B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations as at 31 March 2019 on its financial position in its standalone financial statements - Refer Note 38 to the standalone financial statements;
- ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv. The disclosures in the standalone financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended.

(C) With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

INDEPENDENT AUDITORS' REPORT (Continued)
To the Members of Hinduja Leyland Finance Limited

Annexure A to the Independent Auditor's Report to the members of Hinduja Leyland Finance Limited for the year ended March 31, 2019 (referred to in our report of even date)

- (i)
 - (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) The Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified over a period of two years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme, some of the fixed assets were verified during the year and as explained to us, no material discrepancies were noticed on such verification.
 - (c) According to the information and explanations given to us, and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company.
- (ii) The Company is a non-banking financial company and primarily engaged in lending activities; accordingly it does not hold any physical inventories. Thus paragraph 3(ii) of the order is not applicable.
- (iii) In our opinion and according to the information and explanation given to us, the Company has granted unsecured loans to two companies covered in the register maintained under section 189 of the Companies Act, 2013:
 - (a) In our opinion, the rate of interest and other terms and conditions on which the loans had been granted to the companies / other parties listed in the register maintained under Section 189 of the Act were not, prima facie, prejudicial to the interest of the Company.
 - (b) In the case of the loans granted to the companies / other parties listed in the register maintained under Section 189 of the Act, the borrowers have been regular in the payment of principal and interest as stipulated.
 - (c) There are no overdue amounts in respect of the loan granted to companies / other parties listed in the register maintained under Section 189 of the Act.
- (iv) According to the information and explanations given to us, the Company has complied with the provisions of section 185 in respect of loan, guarantees, investments and security, as applicable. The Company has complied with the provisions of Section 186(1) of the Act in relation to investments made by the Company. The remaining provisions related to section 186 of the Act do not apply to the Company as it is a non-banking financial company.
- (v) As per the information and explanations given to us, the Company has not accepted any deposits as mentioned in the directives issued by the Reserve Bank of India and the provisions of section 73 to 76 or any other relevant provisions of the Companies Act, 2013 and the rules framed there under. Accordingly, the provisions of paragraph 3(v) of the Order is not applicable to the Company.
- (vi) The Central Government has not prescribed the maintenance of cost records under section 148 of the Companies Act, 2013 for any of the services rendered by the Company. Accordingly paragraph 3(vi) of the order is not applicable.

INDEPENDENT AUDITORS' REPORT (Continued)
To the Members of Hinduja Leyland Finance Limited

Annexure A to the Independent Auditor's Report to the members of Hinduja Leyland Finance Limited for the year ended March 31, 2019 (referred to in our report of even date)

(vii)(a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/accrued in the books of account in respect of undisputed statutory dues including provident fund, income-tax, goods and services tax and any other material statutory dues have been generally regularly deposited during the year by the Company with the appropriate authorities. As explained to us, the Company did not have any dues on account of sales tax, employees' state insurance, duty of customs, duty of excise, service tax, value added tax and cess.

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, income tax, any other statutory dues were in arrears as at March 31, 2019 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues in respect of income tax or service tax or value added tax that have not been deposited with the appropriate authorities on account of any disputes except in the following case.

Name of the statute	Nature of the due	Amount (INR lakhs)	Period to which amount relates	Forum where dispute is pending
Rajasthan VAT Act, 2003	Value added tax	40.57	2011-12 to 2014-15	Appellate Authority
Karnataka VAT Act, 2003	Value added tax	121.15	2012-13 to 2016-17	High Court of Judicature at Bangalore
Odisha Value Added Tax Act, 2004	Value added tax	0.034	April 2012 to March 2013	Additional Commissioner of Commercial Taxes (Appeal), South Zone, Berhampur
Andhra Pradesh Value Added Tax Act, 2005	Value added tax	17.55	April 2011 to March 2012	High Court of Judicature at Hyderabad

(viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to any financial institutions or bank or debenture holders. The Company does not have any loans or borrowings from government.

(ix) The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year. However, the Company has raised term loans during the year. In our opinion and according to the information and explanations given to us, term loans taken by the Company have been applied for the purpose for which they were raised.

(x) According to the information and explanations given to us, no fraud by the Company or no material fraud on the Company by its officers or employees has been noticed or reported during the year, except in respect of loans pertaining to its vehicle finance business aggregating to INR 2.65 lakhs which were identified by the management and reported to Reserve Bank of India. As at March 31, 2019, the above amount has been provided for/ written off in the statement of profit and loss.

INDEPENDENT AUDITORS' REPORT (Continued)
To the Members of Hinduja Leyland Finance Limited

Annexure A to the Independent Auditor's Report to the members of Hinduja Leyland Finance Limited for the year ended March 31, 2019 (referred to in our report of even date)

- (xi) According to information and explanations given to us and on the basis of our examination of the records of the Company, the managerial remuneration has been provided and paid by the Company in accordance with the provisions of section 197 read with Schedule V to the Companies Act, 2013.
- (xii) In our opinion and according to the information and explanations given to us, the Company is not a nidhi Company. Accordingly, paragraph 3(xii) of the Order is not applicable.
- (xiii) According to the information and explanations given to us and based on our examination of the records of the Company, the transactions with the related parties are in compliance with sections 177 and 188 of the Act, where applicable and the details as required by the applicable accounting standards has been disclosed in the standalone financial statements.
- (xiv) According to the information and explanations give to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, paragraph 3(xiv) of the Order is not applicable.
- (xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with such directors. Accordingly, paragraph 3(xv) of the Order is not applicable.
- (xvi) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has obtained the registration required under section 45-IA of the Reserve Bank of India Act 1934.

INDEPENDENT AUDITORS' REPORT (Continued)
To the Members of Hinduja Leyland Finance Limited

Annexure B to the Independent Auditors' report on the standalone financial statements of Hinduja Leyland Finance Limited for the year ended 31 March 2019

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to standalone financial statements of Hinduja Leyland Finance Limited ("the Company") as of 31 March 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2019, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

INDEPENDENT AUDITORS' REPORT (Continued)
To the Members of Hinduja Leyland Finance Limited

Annexure B to the Independent Auditors' report on the standalone financial statements of Hinduja Leyland Finance Limited for the year ended 31 March 2019

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

HINDUJA LEYLAND FINANCE LIMITED

Notes to standalone financial statements for the year ended 31 March 2019

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

1 Reporting entity

Hinduja Leyland Finance Limited ('the Company'), incorporated on 12 November 2008 and headquartered in Chennai, India is a Non Banking Finance Company engaged in providing asset finance. The Company is a systemically important non deposit taking Non Banking Finance Company (ND-NBFC) as defined under Section 45 – IA of the Reserve Bank Of India Act, 1934. The Company has received the certificate of registration dated 22 March 2010 from the Reserve Bank of India ("RBI") to carry on the business of Non Banking Financial Institution without accepting public deposits ("NBFC-ND"). Subsequently the Company was granted Asset Finance Company status pursuant to certificate of registration received from RBI dated 12 May 2014 with registration number N-07.00782.

2 Basis of preparation

2.1 Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act'), other relevant provisions of the Act.

The Company's financial statements up to and for the year ended 31 March 2018 were prepared in accordance with the Companies (Accounting Standards) Rules, 2006, notified under Section 133 of the Act and other relevant provisions of the Act.

As these are the Company's first financial statements prepared in accordance with Indian Accounting Standards (Ind AS), Ind AS 101, First-time Adoption of Indian Accounting Standards has been applied. An explanation of how the transition to Ind AS has affected the previously reported financial position, financial performance and cash flows of the Company is provided in Note 4.

These financial statements were authorised for issue by the Company's Board of Directors on May 22, 2019.

Details of the Company's accounting policies are disclosed in Note 3.

2.2 Presentation of financial statements

The Company presents its balance sheet in order of liquidity. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented separately.

Financial assets and financial liability are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- (i) The normal course of business
- (ii) The event of default

2.3 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated.

2.4 Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets	Fair value through other comprehensive income
Liabilities for equity-settled share-based payment arrangements	Fair value
Net defined benefit (asset)/ liability	Fair value of plan assets less present value of defined benefit obligations

HINDUJA LEYLAND FINANCE LIMITED

Notes to standalone financial statements for the year ended 31 March 2019

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

2 Basis of preparation (continued)

2.5 Use of estimates and judgements

The preparation of the standalone financial statements in conformity with Ind AS requires management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Judgements

In the process of applying the Company's accounting policies, management has made judgements, which have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year.

i) Business model assessment

Classification and measurement of financial assets depends on the results of business model and the solely payments of principal and interest ("SPPI") test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the standalone financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

ii) Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values.

iii) Effective Interest Rate ("EIR") method

The Company's EIR methodology, as explained in Note 3.1(A), recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well as expected changes to interest rates and other fee income/ expense that are integral parts of the instrument.

HINDUJA LEYLAND FINANCE LIMITED

Notes to standalone financial statements for the year ended 31 March 2019

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

2 Basis of preparation (continued)

2.5 Use of estimates and judgements (continued)

iv) Impairment of financial asset

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Company's expected credit loss ("ECL") calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- a) The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a life time expected credit loss ("LTECL") basis.
- b) Development of ECL models, including the various formulas and the choice of inputs.
- c) Determination of associations between macroeconomic scenarios and economic inputs, such as gross domestic products, lending interest rates and collateral values, and the effect on probability of default ("PD"), exposure at default ("EAD") and loss given default ("LGD").
- d) Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into ECL models.

v) Provisions and other contingent liabilities

The Company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation, arbitration and regulatory investigations and proceedings in the ordinary course of the Company's business.

When the Company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Company records a provision against the case. Where the outflow is considered to be probable, but a reliable estimate cannot be made, a contingent liability is disclosed.

Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

These estimates and judgements are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances. Management believes that the estimates used in preparation of the standalone financial statements are prudent and reasonable.

3 Significant accounting policies

3.1 Recognition of Interest Income

A. EIR method

Under Ind AS 109, interest income is recorded using the effective interest rate method for all financial instruments measured at amortised cost and financial instrument measured at Fair value through other comprehensive income ('FVOCI'). The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset.

The EIR (and therefore, the amortised cost of the asset) is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of the EIR. The Company recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the financial instrument.

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortised through Interest income in the statement of Profit and loss.

HINDUJA LEYLAND FINANCE LIMITED

Notes to standalone financial statements for the year ended 31 March 2019

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

3 Significant accounting policies (continued)

3.1 Recognition of Interest Income (continued)

B. Interest income

The Company calculates interest income by applying EIR to the gross carrying amount of financial assets other than credit impaired assets.

When a financial asset becomes credit impaired and is, therefore, regarded as 'stage 3', the Company calculates interest income on the net basis. If the financial asset cures and is no longer credit impaired, the Company reverts to calculating interest income on a gross basis.

3.2 Financial instrument - initial recognition

A. Date of recognition

Debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

B. Initial measurement of financial instruments

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial instruments are initially measured at their fair value, except in the case of financial assets and financial liabilities recorded at Fair value through profit and loss (FVTPL), transaction costs are added to, or subtracted from this amount.

C. Measurement categories of financial assets and liabilities

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

- i) Amortised cost
- ii) FVOCI
- iii) FVTPL

3.3 Financial assets and liabilities

A. Financial assets

Business model assessment

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- a) How the performance of the business model and the financial assets held within that business model are evaluated and reported to the Company's key management personnel.
- b) The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed.
- c) How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on
- d) The expected frequency, value and timing of sales are also important aspects of the Company's assessment.

HINDUJA LEYLAND FINANCE LIMITED

Notes to standalone financial statements for the year ended 31 March 2019

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

3 Significant accounting policies (continued)

3.3 Financial assets and liabilities (continued)

SPPI test

As a second step of its classification process, the Company assesses the contractual terms of financial to identify whether they meet SPPI test.

Principal for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of financial asset (for example, if there are repayments of principal or amortisation of the premium/ discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Company applies judgement and considers relevant factors such as the period for which the interest rate is set.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

Accordingly, financial assets are measured as follows

i) Financial assets carried at amortised cost (AC)

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

ii) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Since, the loans and advances are held to sale and collect contractual cash flows, they are measured at FVTOCI.

iii) Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are measured at FVTPL.

iv) Investment in subsidiaries

The Company has accounted for its investments in subsidiaries at cost.

B. Financial liability

i) Initial recognition and measurement

All financial liability are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial liability, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition.

ii) Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method.

3.4 Reclassification of financial assets and liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified. The Company did not reclassify any of its financial assets or liabilities during the year ended 31 March 2019 and 31 March 2018.

HINDUJA LEYLAND FINANCE LIMITED

Notes to standalone financial statements for the year ended 31 March 2019
(All amounts are in Indian Rupees in lakhs, except share data and as stated)

3 Significant accounting policies (continued)

3.5 Derecognition of financial assets and liabilities

A. Derecognition of financial assets due to substantial modification of terms and conditions

The Company derecognises a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognised loans are classified as Stage 1 for expected credit loss (ECL) measurement purposes.

B. Derecognition of financial assets other than due to substantial modification

i) Financial Assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the contractual rights to the cash flows from the financial asset expires or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount (measured at the date of derecognition) and the consideration received (including any new asset obtained less any new liability assumed) is recognised in the statement of profit and loss.

Accordingly, gain on sale or derecognition of assigned portfolio are recorded upfront in the statement of profit and loss as per Ind AS 109. Also, the Company recognises servicing income as a percentage of interest spread over tenure of loan in cases where it retains the obligation to service the transferred financial asset.

ii) Financial Liability

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in the statement of profit and loss.

3.6 Impairment of financial assets

A. Overview of ECL principles

In accordance with Ind AS 109, the Company uses ECL model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- i) The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or

HINDUJA LEYLAND FINANCE LIMITED

Notes to standalone financial statements for the year ended 31 March 2019

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

3 Significant accounting policies (continued)

3.6 Impairment of financial assets (continued)

- ii) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

Both LTECLs and 12 months ECLs are calculated on collective basis.

Based on the above, the Company categorises its loans into Stage 1, Stage 2 and Stage 3, as described below:

Stage 1:

When loans are first recognised, the Company recognises an allowance based on 12 months ECL. Stage 1 loans includes those loans where there is no significant credit risk observed and also includes facilities where the credit risk has been improved and the loan has been reclassified from stage 2 or stage 3.

Stage 2:

When a loan has shown a significant increase in credit risk since origination, the Company records an allowance for the life time ECL. Stage 2 loans also includes facilities where the credit risk has improved and the loan has been reclassified from stage 3

Stage 3:

Loans considered credit impaired are the loans which are past due for more than 90 days. The Company records an allowance for life time ECL.

Loan commitments:

When estimating LTECLs for undrawn loan commitments, the Company estimates the expected portion of the loan commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected shortfalls in cash flows if the loan is drawn down

B. Calculation of ECLs

The mechanics of ECL calculations are outlined below and the key elements are, as follows:

PD:

Probability of Default ("PD") is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio.

EAD:

Exposure at Default ("EAD") is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest

LGD:

Loss Given Default ("LGD") is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD

The Company has calculated PD, EAD and LGD to determine impairment loss on the portfolio of loans and discounted at an approximation to the EIR. At every reporting date, the above calculated PDs, EAD and LGDs are reviewed and changes in the forward looking estimates are analysed.

The mechanics of the ECL method are summarised below:

Stage 1:

The 12 months ECL is calculated as the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. The Company calculates the 12 months ECL allowance based on the expectation of a default occurring in the 12 months following the reporting date. These expected 12-months default probabilities are applied to a forecast EAD and multiplied by the expected LGD and discounted by an approximation to the original EIR.

HINDUJA LEYLAND FINANCE LIMITED

Notes to standalone financial statements for the year ended 31 March 2019

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

3 Significant accounting policies (continued)

3.6 Impairment of financial assets (continued)

B. Calculation of ECLs (continued)

Stage 2:

When a loan has shown a significant increase in credit risk since origination, the Company records an allowance for the LTECLs. The mechanics are similar to those explained above, but PDs and LGDs are estimated over the lifetime of the instrument. The expected cash shortfalls are discounted by an approximation to the original EIR.

Stage 3:

For loans considered credit-impaired, the Company recognises the lifetime expected credit losses for these loans. The method is similar to that for Stage 2 assets, with the PD set at 100%.

C. Loans and advances measured at FVOCI

The ECLs for loans and advances measured at FVOCI do not reduce the carrying amount of these financial assets in the balance sheet, which remains at fair value. Instead, an amount equal to the allowance that would arise if the assets were measured at amortised cost is recognised in OCI as an accumulated impairment amount, with a corresponding charge to profit or loss. The accumulated loss recognised in OCI is recycled to the profit and loss upon derecognition of the assets.

D. Forward looking information

In its ECL models, the Company relies on a broad range of forward looking macro parameters and estimated the impact on the default at a given point of time.

- i) Gross fixed investment (% of GDP)
- ii) Oil price
- iii) Interest rates

3.7 Write-offs

Financial assets are written off when the Company has stopped pursuing the recovery. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to impairment on financial instruments in the statement of profit and loss.

3.8 Determination of fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company has taken into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 financial instruments: Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date;

Level 2 financial instruments: Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads; and

Level 3 financial instruments: Those that include one or more unobservable inputs that is significant to the measurement as whole.

HINDUJA LEYLAND FINANCE LIMITED
Notes to standalone financial statements for the year ended 31 March 2019
(All amounts are in Indian Rupees in lakhs, except share data and as stated)

3 Significant accounting policies (continued)

3.9 Recognition of revenue

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind ASs.

The Company recognises revenue from contracts with customers based on a five step model as set out in Ind AS 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation.

A. Dividend income

Dividend income (including from FVOCI investments) is recognised when the Company's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably. This is generally when the shareholders approve the dividend

B. Rental income

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in rental income in the statement of profit and loss, unless the increase is in line with expected general inflation, in which case lease income is recognised based on contractual terms.

C. Other interest income

Other interest income is recognised on a time proportionate basis.

D. Fees and commission income

Fees and commission income such as stamp and document charges, guarantee commission, service income etc. are recognised on point in time basis.

E. Income from other services

Income from other services are recognised on a time proportionate basis.

3.10 Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Company, at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognized in profit or loss.

HINDUJA LEYLAND FINANCE LIMITED

Notes to standalone financial statements for the year ended 31 March 2019

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

3 Significant accounting policies (continued)

3.11 Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

ii. Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at April 1, 2017, measured as per the previous GAAP, and use that carrying value as the deemed cost of such property, plant and equipment.

iii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iv. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the written down value method, and is generally recognised in the statement of profit and loss.

The Company follows estimated useful lives which are given under Part C of the Schedule II of the Companies Act, 2013. The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset category	Estimated Useful life
Buildings	20 years
Furniture and fittings	8 years
Office equipment	5 years
Servers and computers	3-6 years
Vehicles	5 years
Plant and machinery	5 years
Leasehold improvements	Primary lease period or three years, whichever is earlier

Leasehold improvements are depreciated over the remaining period of lease or estimated useful life of the assets, whichever is lower. Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

3.12 Intangible assets

i. Intangible assets

Intangible assets including those acquired by the Company are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses.

HINDUJA LEYLAND FINANCE LIMITED

Notes to standalone financial statements for the year ended 31 March 2019

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

3 Significant accounting policies (continued)

3.12 Intangible assets (continued)

ii. Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

iii. Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its intangible assets recognised as at 1 April 2017, measured as per the previous GAAP, and use that carrying value as the deemed cost of such intangible assets.

iv. Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the written down value method, and is included in depreciation and amortisation in Statement of Profit and Loss.

Asset category	Estimated Useful life
Computer softwares	5 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

Impairment of non-financial assets

The Company determines periodically whether there is any indication of impairment of the carrying amount of its non-financial assets. The recoverable amount (higher of net selling price and value in use) is determined for an individual asset, unless the asset does not generate cash inflow that are largely independent of those from other assets or group of assets. The recoverable amounts of such asset are estimated, if any indication exists and impairment loss is recognized wherever the carrying amount of the asset exceeds its recoverable amount. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

3.13 Employee benefits

i. Post-employment benefits

Defined contribution plan

The Company's contribution to provident fund are considered as defined contribution plan and are charged as an expense as they fall due based on the amount of contribution required to be made and when the services are rendered by the employees.

Defined benefit plans

Gratuity

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

HINDUJA LEYLAND FINANCE LIMITED

Notes to standalone financial statements for the year ended 31 March 2019

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

3 Significant accounting policies (continued)

3.13 Employee benefits (continued)

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

ii. Other long-term employee benefits

Compensated absences

The employees can carry forward a portion of the unutilised accrued compensated absences and utilise it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within twelve months after the end of such period, the benefit is classified as a long-term employee benefit. The Company records an obligation for such compensated absences in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method.

iii. Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the year in which the employee renders the related service. The cost of such compensated absences is accounted as under :

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

iv. Stock based compensation

The grant date fair value of equity settled share based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date.

3.14 Provisions, contingent liabilities and contingent assets

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. When the effect of the time value of money is material, the Company determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liability

A possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or: present obligation that arises from past events where it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability are disclosed as contingent liability and not provided for.

HINDUJA LEYLAND FINANCE LIMITED

Notes to standalone financial statements for the year ended 31 March 2019

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

3 Significant accounting policies (continued)

3.14 Provisions, contingent liabilities and contingent assets (continued)

Contingent asset

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are neither recognised nor disclosed in the financial statements.

3.15 Leases

i. Determining whether an arrangement contains a lease

At inception of an arrangement, it is determined whether the arrangement is or contains a lease. At inception or on reassessment of the arrangement that contains a lease, the payments and other consideration required by such an arrangement are separated into those for the lease and those for other elements on the basis of their relative fair values. If it is concluded for a finance lease that it is impracticable to separate the payments reliably, then an asset and a liability are recognised at an amount equal to the fair value of the underlying asset. The liability is reduced as payments are made and an imputed finance cost on the liability is recognised using the incremental borrowing rate.

ii. Lease payments

Payments made under operating leases are generally recognised in profit or loss on a straight-line basis over the term of the lease unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

3.16 Income tax

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction; temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

HINDUJA LEYLAND FINANCE LIMITED

Notes to standalone financial statements for the year ended 31 March 2019

(All amounts are in Indian Rupees in lakhs, except share data and as stated)

3 Significant accounting policies (continued)

3.16 Income tax (continued)

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

3.17 Borrowing cost

Borrowing costs are interest and other costs incurred in connection with the borrowings of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalized as part of the cost of the asset. Other borrowings costs are recognized as an expense in the statement of profit and loss account on an accrual basis using the effective interest method.

3.18 Cash and cash equivalents

Cash and cash equivalents comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

3.19 Segment reporting- Identification of segments:

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the Company's Chief Operating Decision Maker (CODM) to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

3.20 Earnings per share

The Company reports basic and diluted earnings per equity share in accordance with Ind AS 33, Earnings Per Share. Basic earnings per equity share is computed by dividing net profit / loss after tax attributable to the equity share holders for the year by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed and disclosed by dividing the net profit/ loss after tax attributable to the equity share holders for the year after giving impact of dilutive potential equity shares for the year by the weighted average number of equity shares and dilutive potential equity shares outstanding during the year, except where the results are anti-dilutive.

3.21 Cash flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, financing and investing activities of the Company are segregated. Cash flows in foreign currencies are accounted at the actual rates of exchange prevailing at the dates of the transactions.

b) Terms/ rights attached to equity shares

The Company has a single class of equity shares having face value of INR 10/- each. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to its share of the paid-up equity capital of the Company. On winding up, the holders of equity shares will be entitled to receive the residual assets of the Company, remaining after distribution of all preferential amounts in proportion to the number of equity shares held.

Nature and purpose of reserve

Securities premium

Securities premium reserve is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes in accordance with the provisions of section 52 of the Act

Employee stock option outstanding

The Company has established various equity settled share based payment plans for certain categories of employees of the Company.

Reserve u/s. 45-IA of the Reserve Bank of India Act, 1934 ("the RBI Act, 1934")

Reserve u/s. 45-IA of RBI Act, 1934 is created in accordance with section 45 IC(1) of the RBI Act, 1934. As per Section 45 IC(2) of the RBI Act, 1934, no appropriation of any sum from this reserve fund shall be made by the non-banking financial company except for the purpose as may be specified by RBI.

Surplus in the statement of profit and loss

Surplus in the statement of profit and loss is the accumulated available profit of the Company carried forward from earlier years. These reserves are free reserves which can be utilised for any purpose as may be required.

Other comprehensive income

- a) The Company has elected to recognise changes in the fair value of loans and advances in other comprehensive income. These changes are accumulated within the FVOCI - loans and advances reserve within equity.
b) Remeasurement of the net defined benefit liabilities comprise actuarial gain or loss, return on plan assets excluding interest and the effect of asset ceiling, if any.

35 Employee stock option

The Company has granted certain stock options to its employees under Employee stock option scheme, 2013 ("ESOP Scheme"). The employee stock options granted entitle the employees to purchase equity shares at an exercise price either at INR 10/- per option or fair value at the date of the grant or as determined by the Nomination and Remuneration Committee at the date of grant.

Options to employees are usually granted with a four-year rateable vesting. The options would need to be exercised within a 3 year period from the date of vesting.

The vesting pattern is indicated below

Particulars	Vesting pattern	Vesting pattern	Vesting pattern	Vesting pattern
Grant date	26-Mar-14	10-Nov-16	23-May-17	29-Jan-18
At the end of one year of service from grant date	20%	20%	20%	20%
At the end of two years	20%	20%	20%	20%
At the end of three years	30%	30%	30%	30%
At the end of four years	30%	30%	30%	30%

Share based payment expense

The expense recognised during the current year:

Measurement of fair values

The fair value of employee stock options is measured using the Black Scholes Model.

The inputs used in the computation of fair value of the grant date fair value are as follows:

Grant date	26-Mar-14	10-Nov-16	23-May-17	29-Jan-18
Value of the share at the grant date	27.95	79	95	110
Exercise price	INR/- 10 to 37.95	INR/- 54.40	INR/- 75	INR/- 110
Expected volatility	0.00%	0.00%	0.00%	0.00%
Expected dividends	0.00%	0.00%	0.00%	0.00%
Risk-free interest rate (based on government bonds)	8.00%	6.88%	7.08%	7.08%
Expected life	4 years	4 years	4 years	4 years

36 Employee benefit – post employment benefit plans

a) Defined contribution plans

The Company makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards Provident Fund, which is a defined contribution plan. The company has no obligations other than to make the specified contributions. The contributions are charged to the Statement of Profit and Loss as they accrue. The amount recognised as an expense towards contribution to Provident Fund for the year aggregated to INR 488 lakhs (31 March 2018 : INR 349 lakhs) (refer note 30)

b) Gratuity benefit plan

Financial assets not measured at fair value

The Company operates a defined benefit plan (the Gratuity plan) covering eligible employees. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age/ resignation date.

The defined benefit plans expose the Company to risks such as Actuarial risk, Investment risk, Liquidity risk, Market risk, Legislative risk. These are discussed as follows:

Actuarial risk: It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Adverse salary growth experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in obligation at a rate that is higher than expected.

Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption than the gratuity benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cash flow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

Investment risk: For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

Liquidity risk: Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cash flows.

Market risk: Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in defined benefit obligation of the plan benefits and vice versa. This assumption depends on the yields on the government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

Legislative risk: Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act, 1972, thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the defined benefit obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

Notes to standalone financial statements for the year ended 31 March 2019

INR in Lakhs

36 Employee benefit – post employment benefit plans (continued)

The following table sets out the status of the gratuity plan as required under IND AS 19. Reconciliation of opening and closing balances of the present value of the defined benefit obligation.

Particulars	As at 31 Mar 2019	As at 31 Mar 2018
Present value of obligations	332	236
Fair value of plan assets	220	206
Liability recognised in the Balance Sheet	(112)	(30)

Movement in present values of defined benefit obligations

Particulars	As at 31 Mar 2019	As at 31 Mar 2018
Defined benefit obligation at the beginning of the year	236	164
Current service cost	68	65
Interest cost	16	11
Actuarial (gains) / losses	46	(1)
Benefits paid by the plan	(33)	(3)
Defined benefit obligation at the end of the year	333	236

Movement in fair value of plan assets

Particulars	As at 31 Mar 2019	As at 31 Mar 2018
Fair value of plan assets at the beginning of the year	206	115
Contributions paid into the plan	29	48
Benefits paid by the plan	(33)	(3)
Expected return on plan assets	15	10
Actuarial (losses) / gains	2	36
Fair value of plan assets at the end of the year	219	206

Expense recognised in the statement of profit or loss

Particulars	Year ended 31 Mar 2019	Year ended 31 Mar 2018
Current service cost	68	65
Interest on obligation	16	11
Expected return on plan assets	(15)	(10)
Net actuarial (gain)/ loss recognised in the year	43	(36)
Total	112	30

Actuarial assumptions

Particulars	As at 31 Mar 2019	As at 31 Mar 2018
Discount rate	7.00%	7.08%
Estimated rate of return on plan assets	7.00%	7.08%
Attrition rate	25.00%	25.00%
Future salary increases	10.00%	10.00%
Retirement age	58 years	58 years

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market. Assumptions regarding future mortality are based on published statistics and mortality tables. The calculation of the defined benefit obligation is sensitive to the mortality assumptions.

Five year information

Gratuity	As at 31 Mar 2019	As at 31 Mar 2018	As at 31 Mar 2017	As at 31 Mar 2016	As at 31 Mar 2015
Defined benefit obligation	333	236	164	139	107
Fair value of plan assets	219	206	115	108	61
Deficit in plan	112	30	48	31	46
Experience adjustments on plan liabilities	46	(1)	(45)	(23)	(2)
Experience adjustments on plan assets	2	36	-	(2)	(1)

Notes to standalone financial statements for the year ended 31 March 2019

INR in Lakhs

36 Employee benefit – post employment benefit plans (continued)

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions; holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	Year ended 31 Mar 2019		Year ended 31 Mar 2018	
	Increase	Decrease	Increase	Decrease
100 base points increase/decrease				
Discount rate	(12)	13	(9)	10
Future salary growth	13	(12)	8	(7)
Attrition rate	(4)	2	(3)	3

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

c) Other long term employee benefits

The liability for compensated absences as at 31 March 2019 is INR 104 lakhs and as at 31 March 2018 is INR 215 lakhs.

37 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available. All operating segments' operating results are reviewed regularly by the Company's Executive Vice Chairman ('EVC') to make decisions about resources to be allocated to the segments and assess their performance. The EVC is considered to be the Chief Operating Decision Maker ('CODM') within the purview of Ind AS 108 Operating Segments.

The CODM considers the entire business of the Company on a holistic basis to make operating decisions and thus there are no segregated operating segments. The CODM of the Company reviews the operating results of the Company as a whole and therefore not more than one reportable segment is required to be disclosed by the Company as envisaged by Ind AS 108 Operating Segments. The company does not have any separate geographic segment other than India. As such there are no separate reportable segments as per IND AS 108 Operating Segments.

38 Contingent liabilities and commitments

Particulars	As at	As at
	31 Mar 2019	31 Mar 2018
Claims against the Company not acknowledged as debts: Value added taxes [bank guarantee provided against the claim (INR 75 lakhs (31 March 2018 : INR 70 lakhs)]	180	59
Bank guarantee against securitisation transactions	4,552	4,552

The Company also receives claims, including those on collection and repossession related matters, which arise in the ordinary course of the business. However, the management does not believe that such matters would have a material effect on the financial statements.

There are no significant capital commitments as at the year end.

45 Financial instrument

A Fair value measurement

Valuation principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions i.e, exit price. This is regardless of whether that price is directly observable or estimated using a valuation technique.

Financial instruments by category

The carrying value and fair value of financial instruments measured at fair value as of March 31, 2019 were as follows:

Particulars	Carrying amount		Fair value			Total
	FVOCI	Level 1	Level 2	Level 3		
Financial assets measured at fair value:						
Loans	644,876	-	-	644,876		644,876

The company does not have any financial assets measured at fair value as on 31 March 2018 and 1 April 2017.

Reconciliation of level 3 fair value measurement is as follows

Loans	Year ended	
	31 Mar 2019	31 Mar 2018
<i>Loans, measured at FVOCI</i>		
Balance at the beginning of the year	-	-
Total gains measured through OCI for additions made during the year	30,028	-
Balance at the end of the year	30,028	-

Sensitivity analysis

31 March 2019	Equity, net of tax	
	Increase	Decrease
Loans		
Interest rates (1% movement)	10,237	(9,892)

B Measurement of fair values

Valuation methodologies of financial instruments not measured at fair value

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the financial statements. These fair values were calculated for disclosure purposes only.

Short-term financial assets and liabilities

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include: cash and cash equivalents, balances other than cash and cash equivalents, other financial assets (excluding dealer trade advances) and trade payables without a specific maturity. Such amounts have been classified as Level 2 on the basis that no adjustments have been made to the balances in the balance sheet. The carrying amounts of the short term financial assets and liabilities are reasonable approximation of their fair values.

Borrowings

The debt securities, borrowings and subordinated liabilities are primarily variable rate instruments. Accordingly, the fair value has been assumed to be equal to the carrying amount.

Loans, Dealer trade advances and other receivables

The fair values of loans and receivables are estimated by discounted cash flow models that incorporate assumptions for credit risks, foreign exchange risk, probability of default and loss given default estimates.

Investments

The fair values financial of held-to-maturity investments are estimated using a discounted cash flow model based on contractual cash flows using actual or estimated yields and discounting by yields incorporating the counterparties' credit risk. Investment in mutual funds has been taken as Level 1 and value has been considered based on mutual fund statement.

Transfers between levels I and II

There has been no transfer in between level I and level II.

C Capital

The Company maintains an actively managed capital base to cover risks inherent in the business and is meeting the capital adequacy requirements of the local banking supervisor, Reserve Bank of India (RBI). The adequacy of the Company's capital is monitored using, among other measures, the regulations issued by RBI.

The Company has complied in full with all its externally imposed capital requirements over the reported period. Equity share capital and other equity are considered for the purpose of Company's capital management.

Capital management

The primary objectives of the Company's capital management policy are to ensure that the Company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The Company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board.

Regulatory capital *

Particulars	Carrying amount	
	As at 31 March 2019	As at 31 March 2018
Tier I Capital	217,017	186,463
Tier II Capital	115,931	76,719
Total Capital	332,948	263,182
Risk weighted assets	1,961,873	1,552,196
Tier I Capital Ratio (%)	11.06%	12.01%
Tier II Capital Ratio (%)	5.91%	4.94%

Tier I capital consists of shareholders' equity and retained earnings. Tier II Capital consists of general provision and loss reserve against standard assets and subordinated debt (subject to prescribed discount rates and not exceeding 50% of Tier I). Tier I and Tier II has been reported on the basis of Ind AS financial information.

* The above computations are as per IND AS. RBI related accounting implications on account of IND AS adoption are not considered in the above computations, as RBI is yet to provide guidance on Ind AS implications in CRAR computations.

HINDUJA LEYLAND FINANCE LIMITED
Notes to standalone financial statements for the year ended 31 March 2019

46 Financial risk management objectives and policies

The Company's principal financial liabilities comprise borrowings from banks and debentures. The main purpose of these financial liabilities is to finance the Company's operations and to support its operations. The Company's financial assets include loan and advances, investments and cash and cash equivalents that derive directly from its operations.

The Company is exposed to credit risk, liquidity risk and market risk. The Company's board of directors has an overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the risk management committee and asset liability committee, which is responsible for developing and monitoring the Company's risk management policies. The committee reports regularly to the board of directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Company's risk management committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

(i) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter-party to financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from customers and loans.

The carrying amounts of financial assets represent the maximum credit risk exposure.

A. Loans and advances

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry.

The risk management committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes external ratings, if they are available, financial statements, credit agency information, industry information etc.

The Company's exposure to credit risk for loans and advances by type of counterparty is as follows. All these exposures are within India.

Particulars	Carrying Amount		
	As at 31 Mar 2019	As at 31 Mar 2018	As at 1 April 2017
Retail loans	1,602,934	1,298,583	966,160
Term loans	154,653	91,125	29,524
Inter-corporate deposits	39,500	9,500	10,000
	1,797,087	1,399,208	1,005,684
Less: Impairment loss allowance	(72,300)	(59,154)	(39,935)
	1,724,787	1,340,054	965,749

An impairment analysis is performed at each reporting date based on the facts and circumstances existing on that date to identify expected losses on account of time value of money and credit risk. For the purposes of this analysis, the loan receivables are categorised into groups based on days past due. Each group is then assessed for impairment using the Expected Credit Loss (ECL) model as per the provisions of Ind AS 109 - financial instruments.

Inter-corporate deposit includes deposits given to the below parties

	As at 31 Mar 2019	As at 31 Mar 2018	As at 1 Apr 2017
Hinduja Energy (India) Limited	4,500	4,500	5,000
Hinduja Group Limited	10,000	5,000	5,000
Hinduja Realty Ventures Limited	10,000	-	-
APDL Estates Limited	3,000	-	-
Hinduja Properties Limited	1,500	-	-
Hinduja Estate Private Limited	3,000	-	-
Hinduja Healthcare Limited	2,500	-	-
IN-Entertainments Indian Limited	5,000	-	-
	39,500	9,500	10,000

Staging:

As per the provision of Ind AS 109 general approach all financial instruments are allocated to stage 1 on initial recognition. However, if a significant increase in credit risk is identified at the reporting date compared with the initial recognition, then an instrument is transferred to stage 2. If there is objective evidence of impairment, then the asset is credit impaired and transferred to stage 3.

The Company considers a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments.

For financial assets in stage 1, the impairment calculated based on defaults that are possible in next twelve months, whereas for financial instrument in stage 2 and stage 3 the ECL calculation considers default event for the lifespan of the instrument.

As per Ind AS 109, Company assesses whether there is a significant increase in credit risk at the reporting date from the initial recognition. Company has staged the assets based on the Day past dues criteria and other market factors which significantly impacts the portfolio.

Days past dues status	Stage	Provisions
Current	Stage 1	12 Months Provision
1-60 Days	Stage 1	12 Months Provision
61-90 Days	Stage 2	Lifetime Provision
90+ Days	Stage 3	Lifetime Provision

Grouping

As per Ind AS 109, Company is required to group the portfolio based on the shared risk characteristics. Company has assessed the risk and its impact on the various portfolios and has divided the portfolio into following groups:

- Commercial vehicle loans
- Two wheeler loan
- Construction equipments
- Three wheeler loan
- Loan against stocks
- Investments
- Dealer trade advances

46 Financial risk management objectives and policies (continued)

Expected credit loss ("ECL"):

ECL on financial assets is an unbiased probability weighted amount based out of possible outcomes after considering risk of credit loss even if probability is low. ECL is calculated based on the following components:

- a Marginal probability of default ("MPD")
- b Loss given default ("LGD")
- c Exposure at default ("EAD")
- d Discount factor ("D")

Marginal probability of default:

PD is defined as the probability of whether borrowers will default on their obligations in the future. Historical PD is derived from the internal data which is calibrated with forward looking macroeconomic factors

For computation of probability of default ("PD"), ARIMA Model was used to forecast the PD term structure over lifetime of loans. As per given long term PD and current macroeconomic conditions, conditional PD corresponding to current macroeconomic condition is estimated. The Company has worked out on PD based on the last four years historical data

The PDs derived from the ARIMA model, are the cumulative PDs, stating that the borrower can default in any of the given years, however to compute the loss for any given year, these cumulative PDs have to be converted to marginal PDs. Marginal PDs is probability that the obligor will default in a given year, conditional on it having survived till the end of the previous year

Conditional marginal probability:

As per Ind AS 109, expected loss has to be calculated as an unbiased and probability-weighted amount for multiple scenarios.

The probability of default was calculated for 3 scenarios: upside (15%), downside (15%) and base (70%). This weightage has been decided on best practices and expert judgement. Marginal conditional probability was calculated for all 3 possible scenarios and one conditional PD was arrived as conditional weighted probability.

LGD:

LGD is an estimate of the loss from a transaction given that a default occurs. Under Ind AS 109, lifetime LGD's are defined as a collection of LOD's estimates applicable to different future periods. Various approaches are available to compute the LGD. The Company has considered the workout LGD approach by considering historical losses and recoveries. The following steps are performed to calculate the LGD:

- 1) Analysis of historical credit impaired accounts at cohort level.
- 2) The computation consists of five components, which are:
 - a) Outstanding balance (POS)
 - b) Recovery amount (discounted yearly) by initial contractual rate.
 - c) Expected recovery amount (for incomplete recoveries), discounted to reporting date using initial contractual rate
 - d) Collateral (security) amount

The formula for the computation is as below:

$$\% \text{ Recovery rate} = (\text{discounted recovery amount} + \text{security amount} + \text{discounted estimated recovery}) / (\text{total POS})$$

$$\% \text{ LGD} = 1 - \text{recovery rate}$$

EAD:

As per Ind AS 109, EAD is estimation of the extent to which the financial entity may be exposed to counterparty in the event of default and at the time of counterparty's default. The Company has modelled EAD based on the contractual and behavioural cash flows till the lifetime of the loans considering the expected prepayments.

Company has considered expected cash flows for all the loans at DPD bucket level for each of the segments, which was used for computation of ECL. Moreover, the EAD comprised of principal component, accrued interest and also the future interest for the outstanding exposure. So discounting was done for computation of expected credit loss.

Discounting:

As per Ind AS 109, ECL is computed by estimating the timing of the expected credit shortfalls associated with the defaults and discounting them using effective interest rate

ECL computation:

Conditional ECL at DPD pool level was computed with the following method:

$$\text{Conditional ECL for year (y)} = \text{EAD (y)} * \text{conditional PD (y)} * \text{LGD (y)} * \text{discount factor (y)}$$

The calculation is based on provision matrix which considers actual historical data adjusted appropriately for the future expectations and probabilities. Proportion of expected credit loss provided for across the stage is summarised below:

		As at	As at	As at
	Provisions	31 March 2019	31 March 2018	1 April 2017
Stage 1	12 month provision	0.25%	0.45%	0.44%
Stage 2	Life time provision	0.51%	0.96%	1.03%
Stage 3	Life time provision	37.34%	36.91%	38.23%
Amount of expected credit loss provided for		72,300	61,214	43,005

The loss rates are based on actual credit loss experience over past years. These loss rates are then adjusted appropriately to reflect differences between current and historical economic conditions and the Company's view of economic conditions over the expected lives of the loan receivables. Movement in provision of expected credit loss has been provided in below note

HINDUJA LEYLAND FINANCE LIMITED

* New assets originated are those assets which have originated during the year.

** Represents the balance outstanding as at beginning of the year, net of repayments made during the year, if any. The repayments are forming part of "Assets derecognised or repaid"

Reconciliation of ECL balance is given below:

Particulars	As At	
	31 March 2019	31 March 2018
ECL allowance - opening balance	61,224	42,065
Addition during the year	28,898	19,922
Reversal during the year	(4,148)	(703)
Write-offs during the year	(9,029)	-
Transfer to OCI	(4,646)	-
Closing provision of ECL	72,300	61,224
Amounts charged off to income statement	38,138	30,165

Collateral and other credit enhancements

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are in place covering the acceptability and valuation of each type of collateral. The main types of collateral obtained are, vehicles, loan portfolios and mortgaged properties based on the nature of loans. Management monitors the market value of collateral and will request additional collateral in accordance with the underlying agreement. The Group advances loan to maximum extent of 70% of the value of the mortgaged properties and 100% in case of vehicles respectively.

The Company also physically repossess commercial vehicles for the recovery of loans. These balances are also disclosed in loan to customers as such repossessed assets are disposed.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure is the total of the carrying amount of the aforesaid balances.

B. Investments

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The exposure to credit risk for investments is to other non-banking finance companies and financial institutions.

The credit committee has established a credit policy under which each new investee pool is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes external ratings, if they are available, financial statements, credit agency information, industry information etc. For investments the collateral is the underlying loan pool purchased from the financial institutions.

An impairment analysis is performed at each reporting date based on the facts and circumstances existing on that date to identify expected losses on account of time value of money and credit risk. For the purposes of this analysis, the investments are categorised into groups based on days past due. Each group is then assessed for impairment using the Expected Credit Loss (ECL) model as per the provisions of Ind AS 109 - financial instruments. Further, the risk management committee periodically assesses the credit rating information.

The total provision under expected credit loss model is INR Nil (31 March 2018 and 1 April 2017: INR 700 lakhs). During the current year, INR 700 lakhs (31 March 2018: Nil) has been charged off to the income statement.

C. Cash and cash equivalent and Bank deposits

Credit risk on cash and cash equivalent and bank deposits is limited as the Company generally invests in term deposits with banks which are rated AA- to AA+, based on CRISIL ratings.

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due.

The Company is monitoring its liquidity risk by estimating the future inflows and outflows during the start of the year and planned accordingly the funding requirement. The Company manages its liquidity by utilised cash credit facility, term loans and direct assignment.

The composition of the Company's liability mix ensures healthy asset liability maturity pattern and well diverse resource mix.

Capital adequacy ratio of the Company, as on 31 March 2019 is 16.97% against regulatory norms of 15%. Tier I capital is 11.06% as against requirement of 10%. Tier II capital is 5.91% which may increase from time to time depending on the requirement and also as a source of structural liquidity to strengthen asset liability maturity pattern.

The total cash credit limit available to the Company is INR 1,350 lakhs spread across 15 banks. The utilization level is maintained in such a way that ensures sufficient liquidity on hand.

The Company's portfolio is loans which qualifies as Priority Sector Lending. The Company has also made sales through direct assignment route (off book) approximately 10% to 25% of assets under management. This further strengthens the liability management.

The table below summarises the maturity profile of the Company's non derivative financial liabilities based on contractual undiscounted payments along with its carrying value as at the balance sheet date

Particulars	1 day to 30/31 days (one month)	Over one month to 2 months	Over 2 months up to 3 months	Over 3 months to 6 months	Over 6 months to 1 year	Over 1 year to 3 year	Over 3 year to 5 year	Over 5 year	Total

HINDUJA LEYLAND FINANCE LIMITED
Notes to standalone financial statements for the year ended 31 March 2019

46 Financial risk management objectives and policies (continued)

(iii) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk includes interest rate risk and foreign currency risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's investment in bank deposits and variable interest rate lending. Whenever there is a change in borrowing interest rate for the Company, necessary change is reflected in the lending interest rates over the timeline in order to mitigate the risk of change in interest rates of borrowings.

Loans extended by the Company are all fixed rate loans.

The sensitivity analysis has been carried out based on the exposure to interest rates for term loans from banks, debt securities and borrowings carried at variable rate.

Particulars	For the year ended 31 March 2019		For the year ended 31 March 2018	
	25 bp increase	25 bp decrease	25 bp increase	25 bp decrease
Variable rate borrowings				
Impact on profit for the year	(2,923.39)	2,923.39	(1,853.06)	(1,853.06)

(v) Foreign currency risk

The Company does not have any instrument denominated or traded in foreign currency. Hence, such risk does not affect the Company.

HINDUJA LEYLAND FINANCE LIMITED
Notes to standalone financial statements for the year ended 31 March 2019

47 Explanation of transition to Ind AS

As stated in Note 2.1, these are the Company's first standalone financial statements prepared in accordance with Ind AS. For the year ended March 31, 2018, the Company had prepared its standalone financial statements in accordance with Companies (Accounting Standards) Rules, 2006, notified under Section 133 of the Act and other relevant provisions of the Act ('previous GAAP').

The accounting policies set out in Note 3 have been applied in preparing these standalone financial statements for the year ended March 31, 2019 including the comparative information for the year ended March 31, 2018 and the opening standalone Ind AS balance sheet on the date of transition i.e. April 1, 2017.

In preparing its Ind AS balance sheet as at April 1, 2017 and in presenting the comparative information for the year ended March 31, 2018, the Company has adjusted amounts reported previously in standalone financial statements prepared in accordance with previous GAAP. This note explains the principal adjustments made by the Company in restating its standalone financial statements prepared in accordance with previous GAAP, and how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows.

Optional exemptions availed and mandatory exceptions

In preparing these standalone financial statements, the Company has applied the below mentioned optional exemptions and mandatory exceptions.

47.1 Optional exemptions availed

(i) Property plant and equipment and intangible assets

As per Ind AS 101 an entity may elect to:

- (i) measure an item of property, plant and equipment at the date of transition at its fair value and use that fair value as its deemed cost at that date.
- (ii) use a previous GAAP revaluation of an item of property, plant and equipment at or before the date of transition as deemed cost at the date of the revaluation, provided the revaluation was, at the date of the revaluation, broadly comparable to:
 - fair value;
 - or cost or depreciated cost under Ind AS adjusted to reflect, for example, changes in a general or specific price index.The elections under (i) and (ii) above are also available for intangible assets that meets the recognition criteria in Ind AS 38, *Intangible Assets*, (including reliable measurement of original cost); and criteria in Ind AS 38 for revaluation (including the existence of an active market).

(iii) use carrying values of property, plant and equipment and intangible assets as on the date of transition to Ind AS (which are measured in accordance with previous GAAP and after making adjustments relating to decommissioning liabilities prescribed under Ind AS 101) if there has been no change in its functional currency on the date of transition.

As permitted by Ind AS 101, the Company has elected to continue with the carrying values under previous GAAP for all the items of property, plant and equipment and intangible assets.

(ii) Investment in subsidiary and associate

Ind-AS 101 allows a first-time adopter to use a deemed cost when measuring an investment in a subsidiary in the separate opening statement of financial position. This deemed cost can be determined using either fair value at the date of transition to Ind-ASs or a previous GAAP carrying amount at that date. A first-time adopter is able to choose whether to use the deemed cost exemption on an investment-by-investment basis for its subsidiary and associate. Accordingly, the Company has elected to avail the exemption and use the previous GAAP carrying value as deemed cost.

(iii) Share based payment

Ind-AS 101 allows a first-time adopter to apply Ind AS 102 Share-based payment to equity instruments that vested before date of transition to Ind ASs. The Company has elected to avail the exemption.

47.2 Mandatory exceptions

(i) Estimates

As per Ind AS 101, an entity's estimates in accordance with Ind AS at the date of transition to Ind AS at the end of the comparative period presented in the entity's first Ind AS financial statements, as the case may be, should be consistent with estimates made for the same date in accordance with the previous GAAP unless there is objective evidence that those estimates were in error. However, the estimates should be adjusted to reflect any differences in accounting policies.

As per Ind AS 101, where application of Ind AS requires an entity to make certain estimates that were not required under previous GAAP, those estimates should be made to reflect conditions that existed at the date of transition (for preparing opening Ind AS balance sheet) or at the end of the comparative period (for presenting comparative information as per Ind AS).

The Company's estimates under Ind AS are consistent with the above requirement. Key estimates considered in preparation of the standalone financial statements that were not required under the previous GAAP are listed below:

- Fair valuation of financial instruments carried at FVOCI
- Impairment of financial assets based on the expected credit loss model
- EIR on borrowings, sourcing income and costs.
- Expected life of loan portfolios

HINDUJA LEYLAND FINANCE LIMITED
Notes to standalone financial statements for the year ended 31 March 2019

(ii) Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification of financial assets on the basis of facts and circumstances existing as on the date of transition. Further, the standard permits measurement of financial assets accounted at amortised cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable.

Accordingly, the Company has determined the classification of financial assets based on facts and circumstances that exist on the date of transition. Measurement of the financial assets accounted at amortised cost has been done retrospectively except where the same is impracticable.

(iii) Derecognition of financial assets and liabilities

As per Ind AS 101, an entity should apply the derecognition requirements in Ind AS 109, Financial Instruments, prospectively for transactions occurring on or after the date of transition to Ind AS. However, an entity may apply the derecognition requirements retrospectively from a date chosen by it if the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

The Company has elected to apply the de-recognition criteria for financial assets/liabilities prospectively from the date of transition. Hence, it has not recognised any financial assets/financial liabilities previously de-recognised.

(iv) Impairment of financial assets

The Company being NBFC company is required to assess the impairment of financial assets based upon the new model i.e. ECL instead of rule based guidance (RBI Prudential Norms) as prevailed under previous GAAP.

Accordingly, the Company has applied the impairment requirement of Ind-AS 109 on all financial assets recognised as per Ind-AS 109 retrospectively except:

1. The Company has sought to approximate the credit risk on initial recognition by considering all reasonable and supportable information that is available without undue cost or effort.
2. The Company has determined whether the financial asset is having low credit risk, as specified in Ind-AS 109, and whether there is a significant increase in credit risk since initial recognition of financial assets by applying rebuttable presumption of 60 days past due.
3. If the Company is unable to determine whether there is a significant increase in credit risk since initial recognition of a financial asset, without involving undue cost or effort, the Company shall recognise a loss amount equal to life time expected losses at each reporting date till the financial asset is derecognised.

Accordingly, the Company has developed ECL model for testing of impairment of loans and advances.

HINDUJA LEYLAND FINANCE LIMITED
Notes to standalone financial statements for the year ended 31 March 2019

47.5 Notes to Ind AS first-time adoption

(i) Loans at amortised cost

Based on Ind AS 109, financial assets in the form of loans have been accounted at amortised cost using effective interest rate method and accordingly, upfront fee and transaction costs have been recognised using the effective interest rate method and recorded under interest income in the statement of profit and loss. Under previous GAAP, transaction costs were charged on a straight line basis to the income statement and disclosed under other expenses (as service provider fee and sourcing expenses). Similarly, upfront fee collected from customers was also recognised in the income statement on a straight line basis and disclosed under other operating income (as service charges and documentation charges). The unamortised component of these transaction costs and upfront fee were disclosed as prepaid expenses and income received in advance under previous GAAP in the balance sheet.

The impact arising from the change is summarized as follows:

	Year ended 31 Mar 2018	
Statement of profit and loss - Increase / (decrease) in profit		
Upfront fee		1,378
Transaction cost		(1,364)
Adjustment before income tax		14
Statement of profit and loss - Reclassifications		
Upfront fee		5,212
Transaction cost		(7,765)
Adjustment to interest income		(2,553)
	As at 1 Apr 2017	As at 31 Mar 2018
Balance sheet		
Increase in unamortised component *	2,053	2,039
Adjustment to retained earnings	2,053	2,039

* Consequent decrease in loans

(ii) Impairment loss allowance on loans, investment and other receivables

On transition to Ind AS, the Company has recognised impairment loss on loans measured at amortised cost based on the expected credit loss model as required by Ind AS 109. Consequently, loans measured at amortised cost have been reduced with a corresponding decrease/ increase in retained earnings on the date of transition and there has been an incremental provision for the year ended March 31, 2018. The provision for standard assets and provision for non-performing assets were disclosed as provisions in the previous GAAP. Under Ind AS, the expected credit loss has been disclosed as a deduction from loans.

The impact arising from the change is summarized as follows:

	Year ended 31 Mar 2018	
Statement of profit and loss - Decrease in profit		
Impairment loss allowance on loans		2,420
Adjustment before income tax		2,420
	As at 1 Apr 2017	As at 31 Mar 2018
Balance sheet		
Increase impairment loss allowance on loans #	19,249	21,669
Adjustment to retained earnings	19,249	21,669

shown as a reduction in loans

Investments

Under Previous GAAP, the Company recorded a diminution in the value of the investments in accordance with AS 13. Under Ind AS, the Company has recognised an impairment loss in accordance with Ind AS 109. Accordingly, a sum of INR 701 lakhs has been adjusted to retained earnings on transition.

Dealer trade advances

Under Ind AS, the Company has recognised an impairment loss in accordance with Ind AS 109. Accordingly, a sum of INR 651 lakhs has been adjusted to retained earnings on transition.

Other receivables

Under Ind AS, the Company has recognised an impairment loss in accordance with Ind AS 109. Accordingly, a sum of INR 618 lakhs towards security deposits and INR 100 lakhs towards other receivables has been adjusted to retained earnings on transition.

(iii) Recognition of suspended interest income (net)

Further, under previous GAAP the Company did not accrue interest income on contracts that were classified as non-performing assets in accordance with the RBI Regulations. Under Ind AS, the Company recognises interest income on these assets resulting in an increase in income of INR 3,868 lakhs for the year ended 31 March 2018 and provided for the same on account of uncertainty of its collections.

HINDUJA LEYLAND FINANCE LIMITED
Notes to standalone financial statements for the year ended 31 March 2019

(iv) Under previous GAAP, the Company classified repossessed assets under other current assets. Under Ind AS, repossessed assets have been classified as Loans. The total value of repossessed assets at 31 March 2018 is INR 19,171 lakhs and INR 12,504 lakhs as at 1 April 2017. Further, the aforesaid repossessed assets have also been subject to the impairment assessment under Ind AS 109. These contracts have been classified as stage 3 contracts for the purposes of the expected credit loss model. Under previous GAAP, these assets were valued by the Company's in-house team and measured at lower of amounts due from the customer or net realisable value. The difference between the impairment as per Ind AS 109 and previous GAAP has been recognised under impairment loss allowance on loans.

(v) **Assignment of loan portfolio**

The Company derecognises the loan portfolio assigned to assignees in compliance with the derecognition criteria. Under previous GAAP, interest income spread on the loan portfolio assigned (net of minimum retention ratio) was recognised in the statement of profit and loss as and when it was accrued, i.e., over the life of the tenure of the assignment transaction. Under Ind AS, such interest income is recognized upfront i.e., at the time of assignment transaction.

This has resulted in increase in equity as on 1 April 2017 by INR 5,046 Lakhs and as on 31 March 2018 by INR 6,442 Lakhs.

The impact arising from the change is summarized as follows:

	Year ended 31 Mar 2018	
Statement of profit and loss - Increase / (decrease) in profit		
Net gain on derecognition of financial instruments		7,879
Interest on other receivables		514
Reversal of excess interest spread		(5,749)
Impairment loss on other receivables		(1,247)
Adjustment before income tax		1,397
	As at	As at
	1 Apr 2017	31 Mar 2018
Balance sheet		
Increase in other receivables	5,046	7,690
Impairment on other receivables	-	(1,247)
Adjustment to retained earnings	5,046	6,443

* Consequent decrease in other receivables

(vi) **Securitisation of loans**

Under Ind AS, the securitisation of loan portfolio does not meet the derecognition criteria under Ind AS 109. Accordingly, the Company has reinstated the loan portfolio in the books for transactions entered into during the financial year 2017-18. A corresponding liability is recognised for the amounts received from the transferee and disclosed as borrowings in the balance sheet. Consequently, the Company has recognised interest income on the underlying loans and also recognised interest expense for the sums payable. For transactions up to 1 April 2017, no adjustments have been made in line with the exemptions available in Ind AS 101.

The impact arising from the change is summarized as follows:

	Year ended 31 Mar 2018	
Statement of profit and loss		
Interest income from financing activities		1,431
Finance costs		(1,431)
Adjustment before income tax		-
	As at	As at
	1 Apr 2017	31 Mar 2018
Balance sheet		
Loans	-	59,105
Borrowings	-	(59,105)
Adjustment to retained earnings	-	-

HINDUJA LEYLAND FINANCE LIMITED
Notes to standalone financial statements for the year ended 31 March 2019

47.5 Notes to Ind AS first-time adoption (continued)

(vii) Borrowings at amortised cost

Based on Ind AS 109, financial liabilities in the form of borrowings have been accounted at amortised cost using effective interest rate method. Accordingly, upfront transaction costs have been included in the effective interest rate computations and disclosed as interest cost in the statement of profit and loss. Under previous GAAP, these costs were amortised on a straight line basis over the tenure of the loan and disclosed under finance costs (as amortisation of processing fee). The unamortised component were disclosed under prepaid expenses under previous GAAP.

The impact arising from the change is summarized as follows:

	Year ended March 31, 2018	
Statement of profit and loss		
Finance costs		9
Adjustment before income tax		9
Balance sheet		
Reduction in unamortised borrowings cost*	April 1, 2017	March 31, 2018
Adjustment to retained earnings	(49)	(40)
* Consequent increase in borrowings	(49)	(40)

(viii) Share based payments measurement

The Company granted cash-settled share-based payments to certain employees. The Company accounted for these share-based payment arrangements by reference to their intrinsic value under previous GAAP. Under Ind AS, the related liability has been adjusted to reflect the fair value of the outstanding cash-settled share-based payments. The charge for the financial year ended 31 March 2018 is higher by INR 79 lakhs.

(ix) Remeasurement of post-employment benefit obligations

Under the previous GAAP, actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability was forming part of the profit or loss for the year. However under Ind AS, such actuarial gains and losses are recognised in other comprehensive income. However, there is no major change on the total comprehensive income and total equity as at April 1, 2017 and March 31, 2018.

(x) Other comprehensive income ('OCI')

Under Previous GAAP, there was no concept of OCI. Under Ind AS, fair valuation of certain loans, investments in pass through certificates and debt securities whose business model is "held to collect and sell" and re-measurement of defined benefit plan liability are recognised in OCI.

(xi) Deferred tax

Previous GAAP requires deferred tax accounting using the profit and loss approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences arising on account of transition adjustments. Deferred tax adjustments are recognised in correlation to the underlying transaction either in retained earnings or a separate component of equity.

HINDUJA LEYLAND FINANCE LIMITED
Notes to standalone financial statements for the year ended 31 March 2019

48 Transfer pricing

The Company has domestic transactions with related parties. The management confirms that it maintains documents required by the relevant provisions of the Income-tax Act, 1961 to prove that these transactions are at arm's length and believes that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expense and that of provision for taxation.

49 Specified Bank Notes (SBNs)

The disclosures regarding details of specified bank notes held and transacted during 8 November 2016 to 30 December 2016 has not been made in these financial statements since the requirement does not pertain to financial year ended 31 March 2019.

50 The disclosures required in terms of Annexure XIV of the RBI Master Direction DNBR. PD. 008/03.10.119/2016-17 dated 1 September 2016 (Updated as on 22 February 2019) "Master Direction - Non-Banking Financial Company - Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 are given in Annexure A forming part of these Financial Statements.

51 The disclosures required in terms of Annexure II of the Master Direction - Non-Banking Financial Company - Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 are given in Annexure B forming part of these Financial Statements.

A. Capital

Particulars	As at	As at
	31 Mar 2019	31 Mar 2018
CRAR %	16.97%	16.95%
CRAR - Tier I Capital %	11.06%	12.01%
CRAR - Tier II Capital %	5.91%	4.94%
Amount of subordinated debt raised as Tier II Capital (INR in lakhs)	89,300	71,500
Amount raised by issue of perpetual debt instruments (INR in lakhs)	Nil	Nil

Note : Capital to risk asset ratio (CRAR) has been arrived on the basis of Ind AS financial statements for the current and comparative period and in consideration of the following:

- Gain on fair valuation of loans measured at FVTOCI amounting to INR 30,028 lakhs has been considered for Tier II capital
- Expected credit Loss (ECL) provision on Stage 1 and Stage 2 assets is considered as contingency provision for the purposes of Tier II Capital
- Inter corporate deposits made to the Companies under the same Group has been deducted from net-owned funds (Also refer note 46)
- Receivable from HLF Services Limited (Associate Company): These balances are receivables from services rendered and are not loan balances. Therefore, these have not been deducted from net-owned funds
- ECL provision with respect to stage 3 assets has been netted off in determination of risk weighted assets
